Flat no. B-805, Al-minal tower, Block 3A, Gulistan e Johar, 75200, Karachi, Pakistan

About me:

I am a passionate and determined candidate who has transformed his hobby into a career, seeking an opportunity with a reputable organisation. I am an accomplished Associate Software Developer with over 3+ years of experience leading projects by acting as an architect, developer and programmer analyst.

WORK EXPERIENCE

07/06/2022 – CURRENT – Karachi, Pakistan

SENIOR SOFTWARE ENGINEER – THE DESIGNRY

- I'm working as **team lead** on more than 2+ project, having a **team of 4 peoples**.
- I worked with modern javascript frameworks and libraries such as **Angular, React JS, Node JS, React Native**, etc.
- Integrated **third-party tools** and components into applications.
- Developed robust, scalable, modular and **API-centric infrastructures**.
- Organize a daily **scrum meeting** to identify, prioritize and execute tasks in the software development life cycle
- Manage & update the **CI/CD pipeline**, review and debug code and working with **Kubernetes, Docker, AWS** and **AZURE**.
- Collaborated with clients to define solution requirements and manage **JIRA** tickets.
- **Tested troubleshooting** methods and documented resolutions for inclusion in knowledge base for support team
- Implement modern/best programming techniques and infrastructures such as **SOLID principles, SaaS, Procedural Programming, Object-oriented Programming, Functional Programming**, etc.

01/06/2019 – 31/05/2022 – Karachi, Pakistan

ASSOCIATE SOFTWARE ENGINEER – ALGORACK INC.

- Working on Full Stack Technologies such as **Angular, React Js, Node JS** and others.
- Improved application designs with addition of new features and infrastructure.
- Integrated Build systems for example **Bable** and **Webpacks**.
- Handle **API Integration** and **Webhooks**
- Optimised test cases to maximize success of manual software testing.
- Created successful test scripts to manage automated feature testing.
- Handle deployments on **Cloud platforms** such as **AWS** and **Github actions** for deployment pipelines.
- Integrate Payment gateways using third party tools such as Stripe API
- Worked with sql and noSql databases such as **Mongodb, MySql, Sql server, postgresql**.
- Handle client meetings and manage **JIRA** tickets.
- Completed various project few are from the scratch and I'm the lead developer having a small team to work on.

01/06/2018 – 31/10/2018 – Karachi, Pakistan

INTERNSHIP – KARACHI PORT TRUST (KPT)

- I worked alongside some of the most skilled programming professionals.
- I learnt **(Dot) Net** programming language.
- I was exposed to the **software infrastructure** used in such a **large sized professional company**.
- Thoroughly understand how **data centers** are utilized in such large organizations works.
- This further helped me increase my **team-working creditability** working within a professional IT department and understanding the **workplace dynamic**.
