About me:

I am a passionate and determined candidate who has transformed his hobby into a career, seeking an opportunity with a reputable organisation. I am an accomplished Associate Software Developer with over 3+ years of experience leading projects by acting as an architect, developer and programmer analyst.

WORK EXPERIENCE

01/06/2019 – 30/05/2022 – Karachi, Pakistan

ASSOCIATE SOFTWARE ENGINEER – ALGORACK

My journey with Algorack as associate software engineer was a great experiences for me. I deal with clients, developed modules for frontend, backend and mobile apps, API integration, write code with modern approaches or industrial best practices. The responsibilities further include code refactoring, testing(unit, integration and e2e). I have further improved my verbal and written communication skills as I dealt with international clients along the way, mentoring and guiding junior.

01/09/2018 – 31/10/2018 – Krachi, Pakistan

INTERNSHIP – KARACHI PORT TRUST (KPT)

It was a great experience while working in one of the biggest organizations in Pakistan. I worked alongside some of the most skilled programming professionals, through whom I learnt (Dot) Net programming language. I was exposed to the software infrastructure used in such a large sized professional company. This opportunity also allowed me to thoroughly understand how data center are utilized in such large organizations works. This further helped me increase my team-working creditability working within a professional IT department and understanding the workplace dynamic.
